

Netball Umpire Time Alert System

Netball is a fast-paced, intense game where time plays a critical role and where every moment holds immense importance.

The Netball Umpire Time Alert System has proven to enable unwavering Umpire focus on the athletes and their actions and preventing timekeeping related distractions.

Key Benefits

- » Delivers a modern, synchronized approach of time alert communications during matches directly to multiple Umpires
- » Its design and configuration makes it highly effective in locations with multiple courts in proximity.
- » Proven to deliver effective, reliable, accurate timekeeping, and communications as an alternative or complement to the traditional whistle system.
- » Water and dust proof technology ensures suitable all-weather and environment operation.
- » Engineered for optimal performance in crowded, noisy indoor or outdoor environments.
- » Design mitigates time-related confusion caused by other audible signals such as whistles from other games and courts in play.
- » Elevates the experience for athletes, coaches, umpires, match officials, and spectators.
- » Customizable audible/vibration or combined alert options to suit individual federation requirements.
- » Designed to seamlessly align with INF rules, guidelines, and objectives.
- » Modernizes Netball court communication to reduce time-related issues and protests.

How it works

Time Alert

- » Upon reaching the designated time, the Timekeeper effortlessly activates the single-button transmitter, triggering a simultaneous audible and/or vibrating alert for all Umpires.

Precision

- » This allows for precise time keeping per game by providing an alert to the Umpires to immediately halt the match at the correct time.

Effectiveness

- » A simple, robust, and easy-to-use system, whether indoors or outdoors, the Netball Umpire Alert System represents a modern approach to and improvement in court and officials' communications.

This easy to use system consists of

Watch receivers

Single button transmitter

Kit product codes:

60-NET2-8519 – 2 watch receivers

60-NET3-8519 – 3 watch receivers
